

PHARMACEUTICAL TECHNOLOGIST

Professional Qualifications and Experience

- Diploma in Pharmaceutical Technology
- Valid Practicing license
- Two years experience in a similar/related role, preferably working in a Hospital

Key Duties

- Review prescriptions to ensure accuracy, to ascertain the needed ingredients, and to evaluate their suitability.
- Provide information and advice to patients regarding drug interactions, side effects, dosage, and proper medication storage.
- Assess the identity, strength, or purity of medications
- Maintain records, such as pharmacy files, inventories, control records for narcotics, or controlled drugs.
- Compound and dispense medications as prescribed by doctors and dentists, by calculating, weighing, measuring, and mixing ingredients, or oversee these activities
- Plan, implement, or maintain procedures for packaging, or labeling pharmaceuticals, according to policy and legal requirements, to ensure quality, security, and proper disposal.
- Train pharmacy students serving as interns in preparation for their graduation or licensure
- Advise customers on the selection of medication brands or healthcare supplies.
- Collaborate with other health care professionals to plan, monitor, review, or evaluate the quality or effectiveness of drugs or drug regimens, providing advice on drug applications or characteristics.
- Analyze prescribing trends to monitor patient compliance and to prevent excessive usage or harmful interactions
- Order and purchase pharmaceutical supplies, medical supplies, or drugs, maintaining stock and storing and handling it properly
