

ST. FRANCIS COMMUNITY HOSPITAL

23rd September 2019

PRESS STATEMENT

St Francis of Assisi was born and raised in Assisi-Italy, he lived a special life of loving and serving the poor, he had an extraordinary love for environment. He advocated for peace and wrote the now famous Prayer for Peace. St Francis is the Patron Saint of the St Francis Community Hospital- Kasarani and that of its trustees, the Little Sisters of St Francis of Assisi. Even though St Francis himself died on the 3rd of October 1226, his human and divine way of life continues to inspire all people in the world to date among them our beloved Pope Francis.

In this regard, St Francis Hospital will host the Annual Feast of St. Francis Celebrations on **Friday, 4th October 2019** at St. Francis Community Hospital – Kasarani in commemoration of this great Saint and the impact St Francis Community Hospital has had in saving life and safeguarding human dignity by participating in the healing ministry of Jesus Christ.

Every year, we take time to reflect on the charism of St. Francis and how it influences the apostolate that we carry out as the fraternity of St Francis Community Hospital on a day-to-day basis to the sick and the most vulnerable people in our society today.

This year in particular, we look forward to celebrating together with our guests, partners and friends, the accreditation of our services as we bless specialized equipment, which will enable us to serve our clients better. Further, we extol the wonderful team of employees who dedicate their lives in offering quality and commendable healthcare services in our beloved hospital.
